African RADO Zone IV	0	0
Anti-Doping Organization (Others)	Total Adverse Analytical Findings	Total Anti-Doping Rule Violations
SportAccord	2	not provided
Commonwealth Games Federation (CGF)	11	6

* NOTE: The Adverse Analytical Findings (AAF) in this report are not to be confused with adjudicated or sanctioned Anti-Doping Rule Violations (ADRV). "Adverse Analytical Finding" is defined in the World Anti-Doping Code as "a report from a laboratory or other WADA-approved entity that, consistent with the International Standard for Laboratories and related Technical Documents, identifies in a Sample the presence of a Prohibited Substance or its Metabolites or Markers (including elevated quantities of endogenous substances) or evidence of the Use of a Prohibited Method." These figures may not be identical to Anti-Doping Rule Violations, as the figures given in this report may contain findings that underwent the Therapeutic Use Exemption (TUE) approval process. In addition, some Adverse Analytical Findings may correspond to multiple measurements performed on the same Athlete, such as in cases of longitudinal studies on testosterone, and some cases may be pending before the appropriate jurisdictions. Anti-Doping Rule Violations listed above may also include violations unrelated to AAFs (e.g. Refusals).
