* The AAFs in this Report are based on results reported by WADA-accredited laboratories in ADAMS for samples received from 1 January to 31 December 2014.

** The Non-Analytical ADRVs in this Report refer to ADRVs related to the World Anti-Doping Code (Code) article 2 other than presence of a prohibited substance. The cases included in this Report were closed between 1 January and 31 December 2014.

Abbreviations

AAF	Adverse Analytical Finding
ADAMS	Anti-Doping Administration and Management System
ADRV	Anti-Doping Rule Violation
AIMS	Alliance of Independent Recognised Members of Sport
AIOWF	Association of International Olympic Winter Sports Federations
ARISF	Association of IOC Recognized International Sports Federations
ASOIF	Association of Summer Olympic International Sports Federations
ASP	Athlete Support Personnel
IF	International Federation
IPC	International Paralympic Committee
MEO	Major Event Organizer
NADO	National Anti-Doping Organization
NF	National Federation
NOC	National Olympic Committee
RADO	Regional Anti-Doping Organization
TA	Testing Authority
TUE	Therapeutic Use Exemption

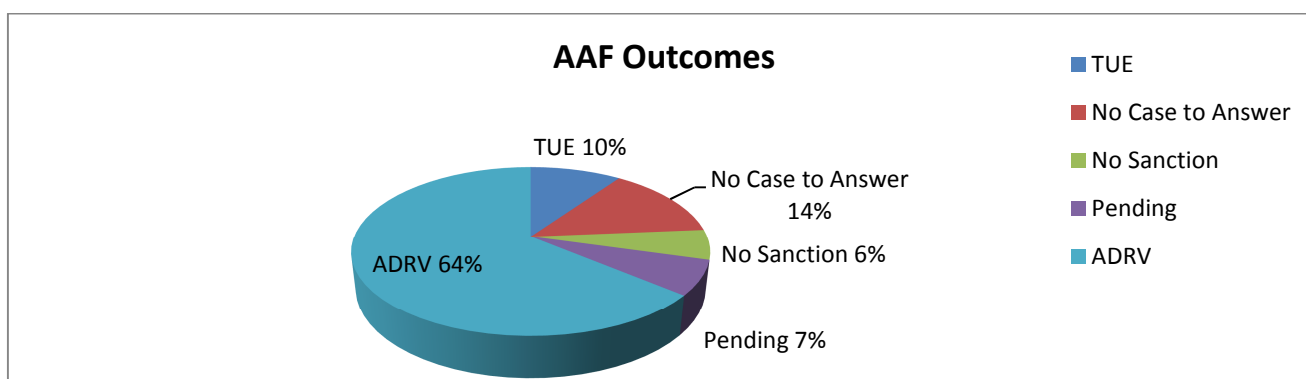

EXECUTIVE SUMMARY

1. This Report includes figures on:
 - Results management outcomes (including ADRVs) of all AAFs detected by WADA-accredited laboratories for samples collected from athletes in- and out-of-competition and received by the laboratories in 2014, by sport and discipline (Section 1) and testing authority (Section 2).
 - ADRVs that resulted from non-analytical findings by athletes and athlete support personnel (Section 3).
 - The total number of ADRVs in 2014, which includes AAFs that resulted in an ADRV plus all non-analytical ADRVs and presents the data by sport and nationality. It is further broken down into type of samples (urine or blood), type of test (in- and out-of-competition) and athlete gender (Section 4).

2. Outcomes of AAFs are classified under five categories in this Report:
 - TUE:** The athlete had a valid TUE that justified the presence of the prohibited substance in the athlete’s sample.
 - No Case to Answer:** Cases closed at results management level, excluding TUE cases. Such cases include for example: authorized route of administration for glucocorticosteroids; departure from International Standards; medically justified AAF (low-level athletes as per the definition of athlete in the Code*); cases outside WADA’s jurisdiction (including non-Code signatories); and any other particular cases.
 - No Sanction:** The athlete was exonerated or deemed to have no fault or negligence following a full disciplinary process. For example, all meat contamination cases where the athlete was exonerated are included in this category.
 - Pending:** WADA has not received all the documentation required to validate the case decision. This may include information such as a reasoned decision, TUE, the athlete’s name, etc.
 - ADRV:** A decision was rendered and an ADRV was recorded against the athlete following a full disciplinary process. The sanction was either a reprimand or a period of ineligibility.

*The definition of ‘athlete’ in the 2009 Code (which applies to the 2014 cases) stipulates that “a country could elect to test recreational-level competitors but not to require therapeutic use exemptions.” As a result, when an AAF is reported for a recreational-level athlete, the case can be closed if the athlete provides a documented medical justification for the use of the substance.

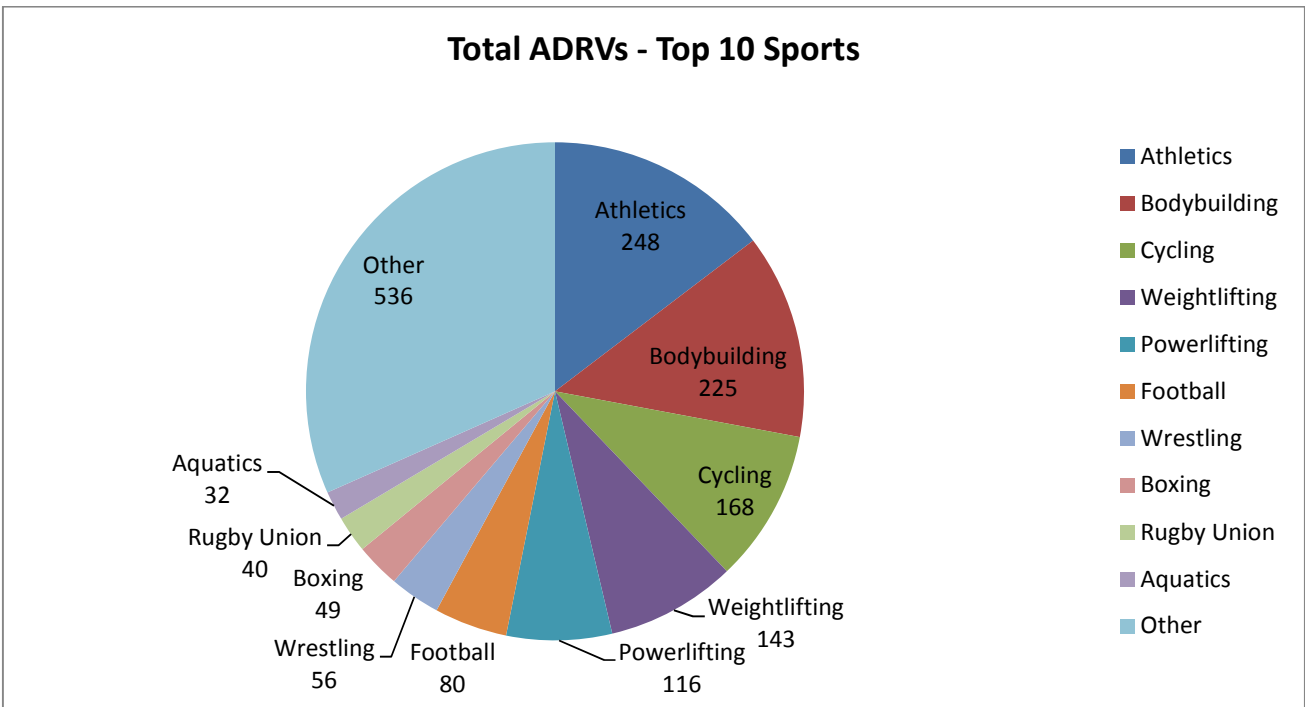

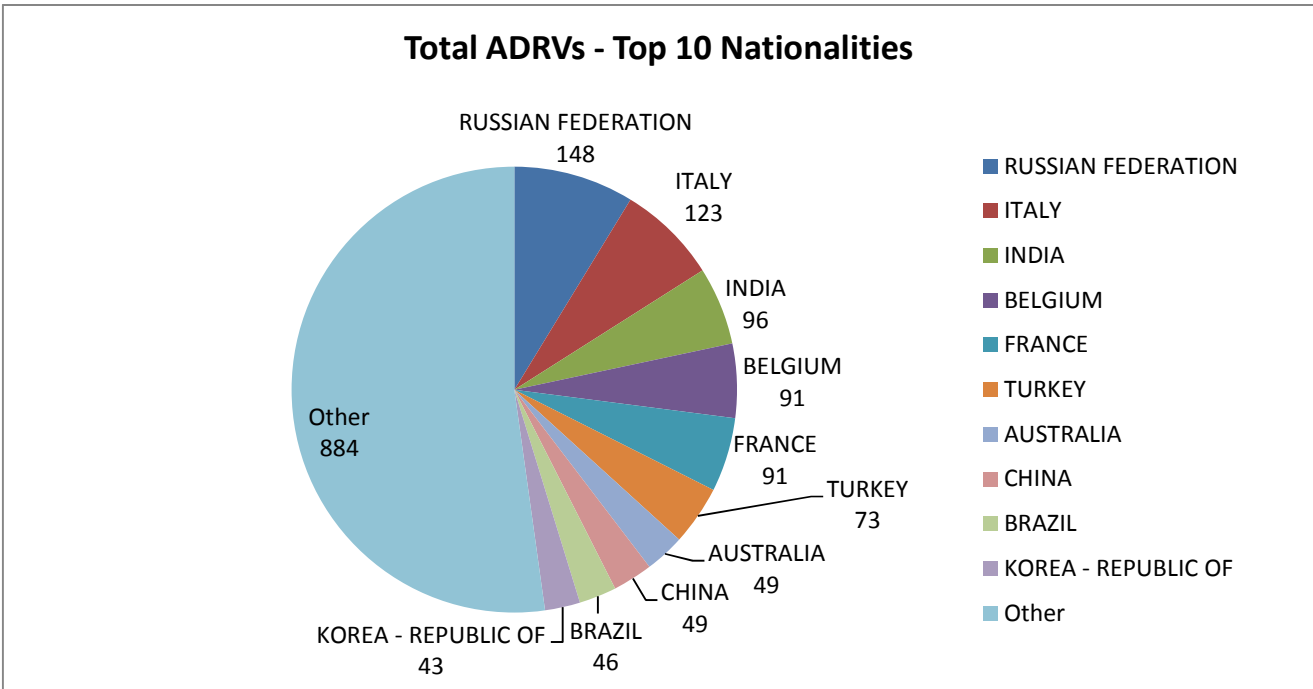

3. A total of 217,762 samples were received and analyzed in 2014 by WADA-accredited laboratories. 2,287 samples were reported as AAFs. Of these:
 - 1,462 (64%) samples were confirmed as ADRVs (sanctions);
 - 224 (10%) samples were dismissed because of a valid TUE held by the athlete;
 - 317 (14%) were categorized as “no case to answer” (i.e. case closed for a valid reason other than a TUE);
 - 132 (6%) samples resulted in “no sanction” because the athlete was exonerated; and
 - 152 (7%) samples were still pending (44 from IF Code signatories and 92 from NADO Code signatories).

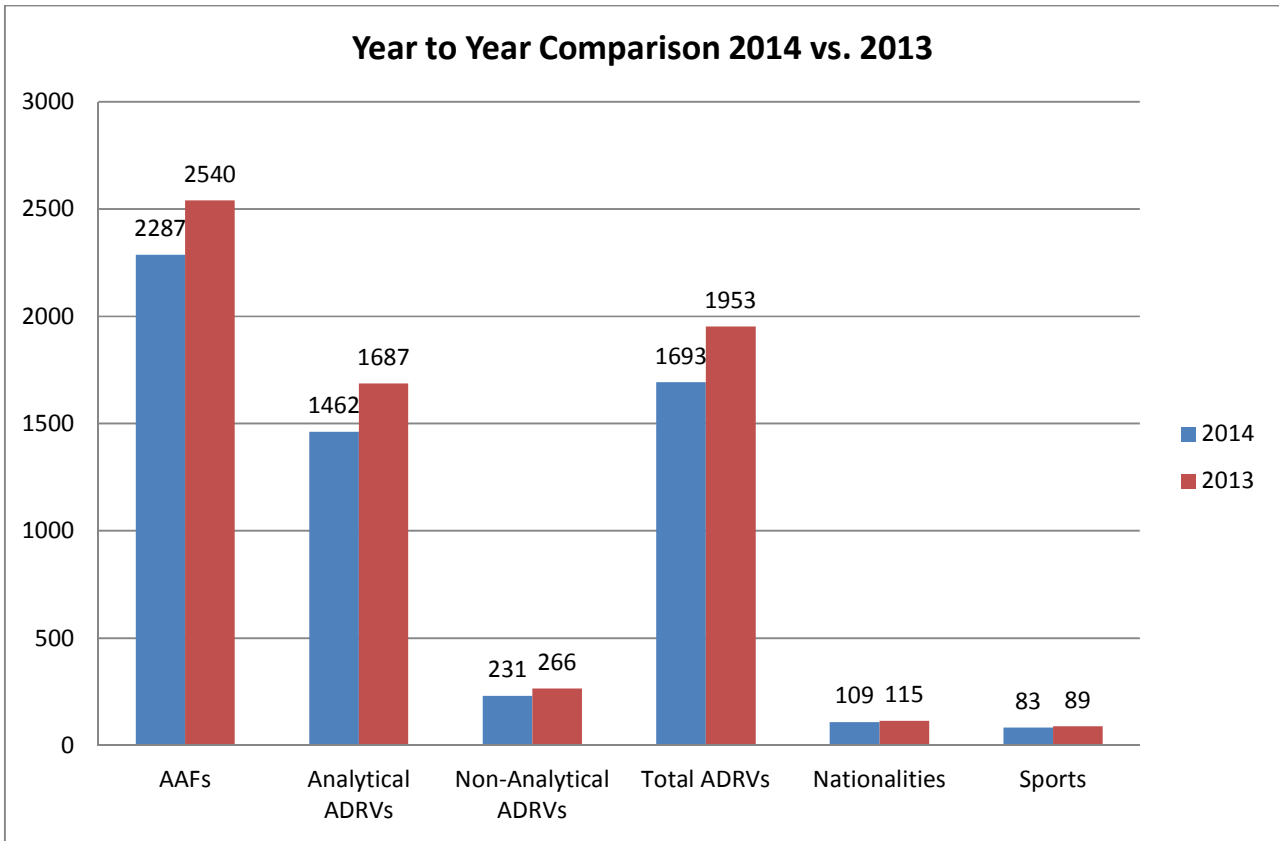

4. Among the 1,462 ADRVs as a result of an AAF, the samples were collected from:
 - 1,159 male (79%) athletes and 303 female (21%) athletes;
 - 328 out-of-competition (22%) and 1,134 in-competition (78%);
 - 1,458 urine and 4 blood;
 - 109 nationalities (as recorded in the case decision received by WADA);
 - 82 sports (sports/disciplines as reported by the WADA-accredited laboratories in ADAMS)

5. A total of 231 non-analytical ADRVs were confirmed in 2014 and involved:
 - 185 athletes of 39 nationalities from 30 sports (as recorded in the case decision received by WADA);
 - 46 athlete support personnel of 20 nationalities (as recorded in the case decision received by WADA)
 Non-Analytical ADRVs in this Report refer to violations related to Articles 2.2 to 2.8 of the Code that do not involve the detection of a prohibited substance by a WADA-accredited laboratory.

6. By combining analytical findings from AAFs and non-analytical findings in 2014 the totals are:
 - 1,693 ADRVs (1,647 from athletes and 46 from athlete support personnel);
 - 109 nationalities;
 - 83 sports (connected to the athletes)

7. Year to year comparison of the 2014 data vs. 2013 data:

Section 1: Outcomes of 2014 AAFs by Sport Category

This Report is compiled based on cases received by WADA Legal Department as of 21 February 2016.

Table 4: Non-Analytical ADRVs by Type of Violation-Athletes and Athlete Support Personnel (ASP)

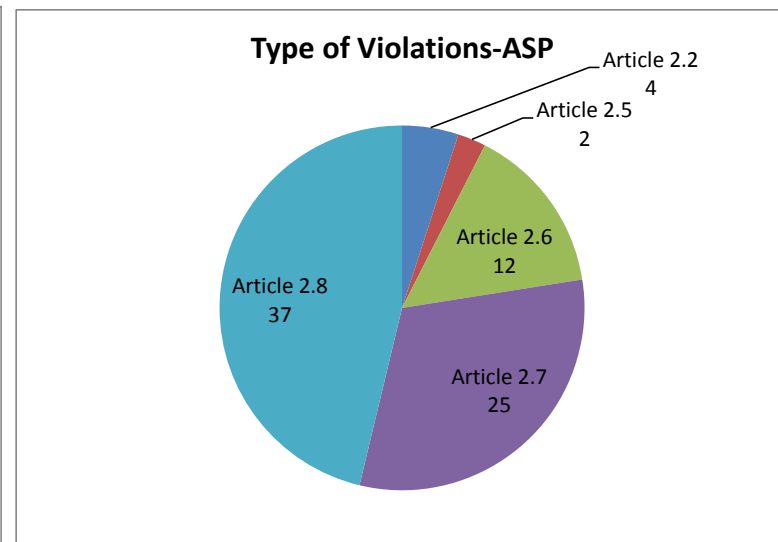

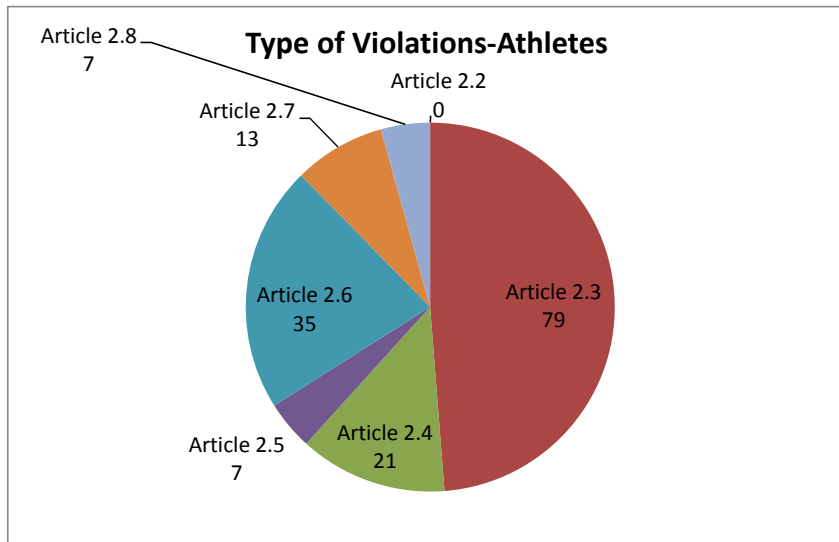

Type of Violations according to Code Articles*	Occurrences** -Athletes	Occurrences** -ASP
Article 2.2 - Use or attempted use	61***	4
Article 2.3 - Refusing, failing without compelling justification or evading	79	0
Article 2.4 - Whereabouts violations****	21	0
Article 2.5 - Tampering or attempted tampering	7	2
Article 2.6 - Possession	35	12
Article 2.7 - Trafficking or attempted trafficking	13	25
Article 2.8 - Administration, attempted administration or assisting, encouraging, aiding, abetting, covering up, etc	7	37
Grand Total	162	80

* Seven cases were recorded in 2014 in relation to Article 10.10.2 of the 2009 World Anti-Doping Code - Violation of the prohibition of participation during ineligibility.

** Cases that are classified under multiple Code article violations are calculated as single occurrences for each type of violation. Therefore, the number of total occurrences is larger than that of non-analytical ADRV cases listed in Table 1, Table 2 and Table 3 of this section.

*** Including 18 ADRVs that were a direct result of Athlete Biological Passport (ABP).

**** Three missed tests and/or filing failures within 18 months.

Section 4: Report of 2014 Total Analytical and Non-Analytical ADRVs

This Report is compiled based on cases received by WADA Legal Department as of 21 February 2016.

Table 1- Total ADRVs from Athletes* by Sport Category

Sport - Nationality	Urine				Blood**		Total Analytical ADRVs	Total Non-Analytical ADRVs	Total ADRVs
	Out-of-Competition		In-Competition		Out-of-Competition
